Description

This highly desirable MARLOW PROWLER 375 CLASSIC with triple outboards is a high-tech, high-quality yacht with the timeless lines of a commuter or picnic boat. With its sleek profile and its flag-blue and oyster-white coatings, the look is stunning. Its 2-foot draft and 33 knot speed give you the ability to run to the Bahamas or other thin-water cruising grounds quickly and comfortably. The cockpit is innovative, with plenty of seating, comfort, and ample storage. The salon is large and open, with a queen berth on centerline forward. A fresh approach from a top-quality builder, the PROWLER is perfect for a couple cruising for a long weekend.

Galley

- Condiment locker
- Granite countertop
- Wine cooler
- Gaggenau Stovetop, electric
- Refrigerator/freezer drawers
- Sink, stainless steel
- Ice cooler

Construction

Prowler Yachts are built at Norsemen Shipyard alongside the Marlow Explorer Raised Pilothouse Series, perhaps the most advanced yacht building factory on earth. Norsemen Shipyard is an environmentally conscious facility featuring the very best in advanced tools and machinery, computer systems, and a talented workforce trained by some of the top master yacht builders in the world in every department. Due to the advanced construction techniques pioneered and proven by the Marlow Explorer Series, we can offer the interior and cockpit volume of a much larger yacht. This complex tooling and production method rids the yacht of space-robbing heavy wooden framing commonly seen. Replaced by composite sandwiches similar to high performance aircraft, racing yachts, and race cars, the technique allows far greater interior volume while producing a much stronger and lower maintenance yacht. Cat-like performance, highly advanced technology and the finest attention to detail have created another benchmark for excellence from Marlow Yachts that others could only attempt to emulate.

- Boot stripe, painted Awl-Grip
- Cabin soles and bulkheads, foam-FRP high pressure resin infused. Finishes with teak and holly
- Epoxy barrier undercoat
- Gel-coated fiberglass exterior superstructure
- Vacuum bagged and modified epoxy resin infused fiberglass construction
