FOR IMMEDIATE RELEASE

Marlow Explorer 58E

Snead Island, Florida – January 4, 2024 (Marlow Yachts Limited, Inc.)

Fresh from our environmentally green factory in the Garden City of Xiamen, China, is our head-turning Marlow Explorer 58E Hull #27. She will be featured at the 2024 Miami International Boat Show in February, showcasing her Oyster White Hull and superstructure as well as her custom Command Bridge.

Hull #27 of the 58E series includes a modified Beach Club with Crew quarters for added comfort or the occasional crew, making an already spacious area even larger and providing ample and easy access to storage through the oversized transom door for ease of loading and unloading toys.

This 58E is a 3-stateroom yacht with a full beam master stateroom, a queen-sized berth in the VIP stateroom, and a double berth in the starboard guest stateroom. This yacht offers comfort and luxury to the proud owners and honored guests. Their desired lifestyle with this outstanding spatial engineering is not compromised.

The custom Galley forward layout on this Marlow Explorer 58E features an island with a panoramic view for the chef and lucky guests while serving as a preparation center for delectable meals. A conventional oven, cooktop, and Sub-Zero fridge and freezers make any meal a breeze to cook. All this is joined by the luxurious dining lounge, providing an exceptional atmosphere to create lifelong memories with family and friends.

The custom Command Bridge layout includes a large seating area and a day head. This layout provides comfort for all aboard, allowing additional entertaining space regardless of weather conditions. Captaining this Marlow Explorer is made simple with the robust Garmin navigation and electronics package at the helm. This 58E includes a davit on the upper aft deck as well as a Freedom Lift off the stern for flexibility of tender storage and transport.

A walk-in transom door leads to a world-class stand-up engine room with 360-degree access. Hull #27 is equipped with upgraded twin Volvo D13 1000 HP engines and twin 21kW Kohler Generators. There will be no hands and knees crawling or crouching in this Marlow's spacious engine room.
