FOR IMMEDIATE RELEASE

Marlow Explorer 70E MK II

Snead Island, Florida – September 26, 2023 (Marlow Yachts Limited, Inc.)

Our Marlow Explorer 70E MKII Hull #227 recently arrived in the USA from our own purpose-built environmentally green manufacturing facility in the Garden City of Xiamen, China, to Florida and will be displayed at the 2023 Ft. Lauderdale Boat Show in October.

Since 2002, the immensely popular 70E model has led the industry in fast offshore and long-distance cruisers. The second generation 70E MKII model holds steadfast to Marlow's standard of excellence and features many new upgrades throughout the vessel, from styling to engineering, while remaining true to the timeless looks of Marlow Yachts.

This commodious three stateroom plus crew yacht features a Master Stateroom with a king-size bed, large head and shower, and a full walk-in closet. The crew quarters do not lack in size, comfort, and superb artistry in manufacturing. The custom Command Bridge layout includes a personalized Captain's Cabin with its own head, full shower, planning area, and plush seating located behind the seating area on the starboard side and day head.

The country kitchen on this Marlow Explorer 70E MKII is as large as many luxury homes, with a panoramic view for the chef and lucky guests while serving as a preparation center for delectable meals. A conventional oven, cooktop, dishwasher, and Sub-Zero fridge and freezer make any meal a breeze to cook and clean up. Joined by the luxurious dining lounge for eight, it provides an exceptional atmosphere to create lifelong memories with family and friends.
