Description

The stunning 2023 66E-CB Marlow Explorer “KARMA” was built for an experienced, long-range cruising individual with an appetite for adventure. She offers the perfect balance of fun, comfort, and elegance with Marlow Yacht’s traditional exterior lines combined with the yachting world’s finest semi-custom interior fit and finish. She has been enjoyed by her owner between the waters of South Florida, Bahamas, and numerous Virgin Islands across the Caribbean.

“KARMA” offers all the comforts of home with a magnificent Salon, Galley, and Staterooms layout that make her a remarkable livable vessel. She has ample space for family and friends to spend extended periods of time aboard as she is well appointed with many areas for resting, lounging, and entertaining.

The Command Bridge design makes this vessel a dream to handle for any captain in any type of weather. Her robust navigation and electronics package allow for close quarters maneuverability around the docks and intracoastal waters as well as long range and overnight cruising.

Equipped with twin Caterpillar C-18 1150HP engines, “KARMA” has the flexibility to cruise long range at 8-10 knots while having the ability to get up and fast cruise at 20+ knots when necessary.

The Marlow Explorer 66E has been one of the most popular models ever built by Marlow Yachts as she offers a vast amount of interior and exterior space while still being a manageable size vessel for just two people. “KARMA” is one of the best equipped 66E Marlows built to date and she is ready to cruise.
