Description

The Marlow Explorer is one of the most well known examples of an open ocean cruising vessel and “The Garlic” is a classic boat that is mechanically sound and ready for cruising. She has relatively low hours compared to her competitors and she is priced more attractively than anything else on the market.

“The Garlic” has done multiple trips to the Bahamas and has been regularly in use until the owners’ needs for a larger vessel. They have now purchased a larger Marlow, making the 70E available to any Owner/Operator or owner with crew to take over and continue enjoying at will.

“The Garlic” is a beautiful boat that will benefit from some cosmetic improvements in line with the taste of her new owner, anything needed is more than compensated for in her pricing which is the lowest on the market. She has the lowest hours on her twin Caterpillar engines compared to anything on the market. Sellers will consider all reasonable offers.

This Marlow is recognized for her stunning profile and traditional lines, a seaworthy boat designed for long range, open ocean excursions but capable of speed when needed.

The Flag blue Awlgrip finished hull is a desired color, while best-in-class technologies are employed in the yacht's overall construction. The composite structure of Dupont Kevlar, vinylester resins, core-cell foam and engineered fabrics are vacuum bagged and built in only three major molds to eliminate unsightly joint areas and achieve superior strength that withstands the punishment of rough seas and floating objects.

Designed and patented Velocijet Strut Keels delivers outstanding performance that tracks reliability through the toughest seas. The core - cell foam construction provides unparalleled strength and provides excellent sound and thermal insulation.

Features and Upgrades:

Manufacturer Provided Description

Marlow Explorer Yachts are limited production yachts built under constant supervision and stringent quality control procedures. The Marlow Explorer 70E is designed and built to cross the oceans of the world in comfort and safety while the proprietary Strut Keel technology allows inland and island cruising with fully protected running years.

Additional Description

Only the finest components like Dupont Kevlar, CoreCell and engineering construction fabrics are specified for the hull, deck and superstructure of the Marlow Explorer. Vinylester and Epoxy resins and glues are used throughout. Only top quality mechanical components like Aquadrive constant velocity joints, Tides seals, Trace inverters are used. On the lovely hand finished interior quality brands like Sub Zero, Dacor, Asko, Bosch, Franke, Grohe and similar are found. Fine fabrics of Ultraleather and other top brands grace the interior. The result is reminiscent of an era when quality, not quantity was the hallmark of a fine yacht.

Walkthrough

Main Salon The salon is elegantly and tastefully decorated. In addition to the 24V Italian and Danish lighting and behind valance lighting, there are three well placed table lamps, giving the salon and dining area a very distinct ambiance. The tinted windows are covered with beautiful wood blinds and curtain accents. This is a very warm and inviting area. The starboard side of the salon has elegant, supple Ultraleather built in U-settee providing seating for several guests. The flat screen TV is on an electric lift with remote control. On either side of the TV there are two very comfortable leather chairs along the port side just forward of the stairs down to the crew quarters.

The dining area has a rectangular dining table with glass top over teak and six dining chairs. There is a custom china cabinet with teak divided and framed glass doors, cupboards and several drawers for dish and glass storage.

Galley The galley is very well equipped with top of the line appliances and plenty of storage for housewares and food. It is U-shaped with beautiful black granite countertops throughout, creating a lovely setting for entertaining guests in the pilothouse.

- Dacor cooktop smooth with sea rails/potholders
- Grohe faucet
- Cracker keeper
- Teak and Holly sole
- Fisher and Paykel single drawer dishwasher
- SubZero refrigerator/freezer (4 drawers total)
- Dacor 27' oven centered below cooktop
- Microwave oven
- Franke double sink with cover

Pilothouse Up three steps to the Pilothouse is another very comfortable area, complete with large comfortable helm chair for the captain next to a gorgeous teak dinette with Ultraleather seating for guests. The overhead panel has electronics, breakers, stabilizer controls, inverter control, tank tender and the vessel control center.

- Twin Garmin 7215 Chart plotters
- 15in flat screen TV
- Simrad AP20 autopilot w/display and AP21
- Yacht Controller
- ICOM M604 VHF radio and antenna
- SSB ICOM IC M802
