Description

The immaculate 2025 53E Marlow Explorer "LADY V" was built for an experienced cruising couple with an eye for perfection and an appetite for adventure. She offers the perfect balance of fun and elegance with Marlow's traditional exterior lines combined with the yachting world's finest interior fit and finish.

As you step onto the cockpit from either one of the side boarding gates you will find ample space for entertaining, seating, and storage.

Walking forward into the salon through a set of sturdy aft double doors immediately gives you the cozy feel of home. She was built with maple wood on the walls giving her a much lighter, tropical feel. The salon includes a long settee to port and an L-shaped settee to starboard which was custom built to turn into an extra berth. In this space you will find storage throughout, including underneath the settees. As you walk forward and up a couple of steps on the port side, you are brought up to the pilothouse/galley area. Here you will find a gourmet galley aft, a full centerline helm forward, a dining area to starboard and an extra large storage cabinet to port. A set of stairs on the port side leads you down to the companion way and the custom three staterooms accommodations lower level. As you come down these steps and arrive at the landing area of the companionway, you will notice the VIP stateroom forward, guest stateroom on the starboard side, and the full beam master aft. The master has an en suite head located to starboard, athwartship King size bed, and a walkway from the master stateroom into the engine room. This popular layout with walk-thru to the engine room allows for the space to be made into a laundry room and utility area. The VIP and the starboard guest stateroom share a head located on the port side of the companionway. Heading back up to the bridge level you will notice the 360° sight line of the vessel from up here. The helm station here is equipped with an impressive array of electronics and provides a great view whether you are cruising or at anchor enjoying this accommodating space. "LADY V" is powered by twin Volvo D13 diesel engines (1000hp each) and twin 16kW Northern Lights generators.

Whether you are looking to head up the Intracoastal for a sunset cruise or take the trip of a lifetime to the Caribbean, this 53E Marlow Explorer is the perfect yacht for the job.
